Silkline Secure Configuration Guide: How to Obtain and Use

October 25, 2026

How to obtain the guide

Silkline's Secure Configuration Guide is published publicly, with no sign-in required, at:

https://docs.silkline.ai/configuration/secure-configuration-guide

This link always points to the current version.

How to use the guide

Customer administrators use the guide to configure top-level administrative and privileged accounts and to keep security-related settings at their recommended secure defaults. Follow its instructions when setting up your organization, when administrative access changes, and during periodic access reviews.
