PUBLIC SERVICE SCOPE LIST

Services and Security Categories in the FedRAMP Minimum Assessment Scope

Document ID	TT-PUB-SL-001
Version	1.0
FedRAMP Package ID	FR2634659079
Classification	PUBLIC (release subject to Pre-Publication Sensitivity Review)
Effective Date	Upon publication to the Trust Center
Review Cycle	Quarterly, and on any change to the services offered, their security categories, or the Minimum Assessment Scope
Document Owner	GRC Admin
Paramify Reference	Evidence set — EVD-PUBLIC-DISCLOSURE

PUBLIC | RELEASE SUBJECT TO SENSITIVITY REVIEW

TABLE OF CONTENTS

1. Purpose and Scope
2. Offering Summary
3. Services in Scope
4. Minimum Assessment Scope
5. Review and Maintenance

1. PURPOSE AND SCOPE

This document is the public list of the specific services, and their security categories, that are included in the ThinkTrends AI Platform (TT-PLATFORM) cloud service offering for FedRAMP. It is published so that a prospective customer can tell which services are and are not included in the FedRAMP Minimum Assessment Scope without requesting access to underlying FedRAMP Certification Data. Service names are those used in the FedRAMP Certification Package Overview.

In Scope

- The service listed in Section 3 and the capabilities it includes.

Out of Scope

Any product, service or capability not listed in Section 3 is not included in the FedRAMP Minimum Assessment Scope.

2. OFFERING SUMMARY

Item	Detail
Provider	ThinkTrends LLC
Service	ThinkTrends AI Platform (TT-PLATFORM)
FedRAMP ID	FR2634659079
Certification	FedRAMP 20x, Class C
Security Category	Class C (Moderate)
Service Type	SaaS, PaaS
Deployment Model	Public Cloud
Website	https://thinktrends.co/

3. SERVICES IN SCOPE

Service	Security Category	Date Available	In Minimum Assessment Scope
ThinkTrends — The Enterprise Agentic AI Platform	Class C (Moderate)	2026-01-01	Yes

ThinkTrends — The Enterprise Agentic AI Platform

ThinkTrends AI Platform is a cloud-based, enterprise-grade Agentic AI platform developed by ThinkTrends LLC. It provides federal agencies and commercial organizations with a unified environment for deploying, managing, and operating AI-powered agents, knowledge bases, data pipelines, and intelligent workflows. Key capabilities include:

- **AI Agent Studio:** Build and deploy conversational AI agents with RAG (Retrieval-Augmented Generation), memory, and tool integrations backed by Amazon foundation models.
- **Knowledge Base Management:** Ingest, index, and query structured and unstructured documents using vector embeddings for grounded, citation-based AI responses.
- **Agent Flow Orchestration:** Design and execute visual node-based AI workflows for automated, multi-step tasks.
- **Data Pipelines:** Managed Agentic ETL-based pipelines for data ingestion, transformation, and delivery.
- **Guardrails & Safety:** Configurable content safety guardrails (HIPAA, PII, tone, compliance policies) applied at the agent and platform level.
- **File & Drive Integration:** Secure file management integrated with Google Drive and native cloud storage.
- **Enterprise Connectors:** Native integrations with Slack, Jira, Google Workspace, Microsoft 365, and agency enterprise systems.
- **Agentic Governance:** Ability to run automated evaluation jobs, analyse agent responses against accuracy, relevance, and safety benchmarks, and iteratively improve prompts based on those scores

4. MINIMUM ASSESSMENT SCOPE

The service in Section 3 is included in the FedRAMP Minimum Assessment Scope for TT-PLATFORM. The offering runs on Amazon Web Services, which is FedRAMP Moderate authorized and provides compute, storage, vector database, relational database, workflow orchestration and identity and access management.

5. REVIEW AND MAINTENANCE

This list is reviewed quarterly by the GRC Admin and whenever a service, its security category, or the Minimum Assessment Scope changes. Before each publication it passes the Pre-Publication Sensitivity Review Procedure (TT-PRC-SR-001), and the FedRAMP ID present in this document is kept identical to the ID on the FedRAMP Marketplace listing and in all other FedRAMP materials.
